

REMARKS

Applicant is filing herewith an RCE for the purpose of submitting an information disclosure statement. In addition, applicant determined that the continuation in part (CIP) claim of the present application is erroneous since the present claims define an invention different from that described in the parent application and not having a common inventor with the parent application (US Patent Application 10/116,690).

Applicant will be filing in the near future a continuation application of the present application which will be a continuation in part of US Patent Application 10/116,690, filed on April 4, 2002 and will have a claim set having a common inventor with this application.

As the application was previously allowed, a further notice of allowance is respectfully awaited.

Respectfully submitted,
Ron GINOR

Yaakov Schatz,
Reg. No. 44,320
